

NOTES TO USERS

1. These Notes are complementary to AP 3456 (Flying) and reference should be made to Sea Vixen Operating Data Manual (AP 4647B-0D).

2. A set of Flight Reference Cards (AP 301B-3002-14), for use in the air, is issued separately from these Notes and is subject to separate amendment procedure. The Cards are, however, complementary to these Notes and reference is made to them when necessary.

3. The limitations quoted in Part II of the Notes are mandatory and are not to be exceeded except in emergency. The contents of other Parts of the book are mainly advisory, but instructions containing the word "must" are also mandatory.

4. Throughout these Notes the following conventions apply:

- Words in large capital letters indicate the actual markings on the controls concerned.
- Unless otherwise stated all airspeeds, accelerometer readings and Mach numbers quoted are indicated values.

5. Each Amendment List instruction sheet includes a list of Special Flying Instructions, and a list of the modifications covered by the Amendment. New or amended matter of importance will be indicated by triangles positioned in the text thus: ◀ → to show the extent of amended text and thus ▶ to show where text has been deleted. The number of the amendment list by which a sheet was initially issued or re-issued, will appear at the bottom of the pages and any triangles on a page will, therefore, refer to that amendment list. However, when a new chapter is issued with an amendment list, or an existing chapter is completely revised, this fact will be noted within the heading of the chapter and the triangles will not appear.

6. Modification numbers are only referred to in these Notes when it is necessary to differentiate between pre- and post-Mod. states. For ease of reference a List of Modifications referred to in the text is included, with a cross-reference to the location in the text where details of the modification are given.
